Subject: FW: Connecting to PEHSU

Late this week, I received an invitation to an event that is occurring next week. Shirley Smith has asked that I invite you to attend, particularly on the days that the VI and PR discussed, August 8 and August 12. The panel days in the table below are ones in which block grants will be addressed. You, or someone from your staff are welcome to attend those as well, but you may be more interested in the conferences on August 8 and 12.

If you plan on attending, you can send Shirley an e-mail at the address below and given the short notice, Shirley has given us her phone number to enable you or someone on your staff to call on Monday (for the VI) and/or Friday (for the PR).

As to the VI, this should provide a unique opportunity because of the five VI Dept of Health managers who will be attending all but one is a recently appointed manager. In addition, Michelle Davis, the new territorial Commissioner of Health may be participating by phone. As to PR, members of its Dept of Health and the 2 MCH Directors and their staff will be attendance on the Friday the 12th.

Because of technical difficulties, I will be forwarding the Agendas in a separate e-mail.

Subject: RE: Connecting to PESHU

Hello Everyone, thank you so much for your interest and response to my inquiry re contacting PESHU Unit who have provided TA/training to VI and PR Title V MCHBG programs!

WE have new staff in VI and PR has major issues related to ZIKA , and VI on a smaller scale!

The Region II State MCH/CSHN directors and staff will be meeting (216 Federal Plaza, 33rd floor, RM 3337) for discussions with expert panel reviewers focusing on the 2017 MCH/CSHN Application /2015 Annual Report, highlighting strengths, best practice, model programs, gaps and weaknesses,. The expert review panel provides recommendations for TA or further training or collaboration with other agencies to improve program performance and health outcomes. My colleague Mark Maddaloni EPA Region II attended the Region II Block grant reviews and identified common interests in promoting healthier outcomes for children

VI and PR were identified for high level TA/Training , and EPA has worked with other DHHS/HRSA programs , and introduced the MT Sinai PESHU Unit, a wonderful resource and collaborative partner

MCHB Panel Reviews:

Date/Time	State
Tuesday, August 9th 8:30 a.m. - 4:30 p.m.	VI
Wednesday, August 10th 8:30 a.m. - 4:30 p.m.	NJ
Thursday, August 11th 8:30 a.m. - 4:30 p.m.	PR

This year we are offering two TA days for VI Aug 8 and PR Aug 12

Attached are documents for VI: Agenda /participants for Aug 8 TA Federal Partners., and Aug 9 VI BG Panel review agenda, and similar documents for PR

MT Sinai PESHU Unit

Please reach out to MT Sinai PESHU Unit and EPA colleagues are welcome to attend as we work together to improve children health and environment in US VI !

Best wishes,

Shirley A. Smith
